

JONATHAN NADEAU

ANALYSIS • AUTOMATION • REPORTING • PROCESS DOCUMENTATION

Torrance, CA | (310) 989-2905 | nadeau.jonny@gmail.com | linkedin.com/in/nadeau-jonathan | github.com/nadeaujonny

Portfolio Website: nadeaujonny.github.io

SUMMARY

Mathematics graduate (UCSB) and Google Data Analytics certified, sole developer of eight internal tools at a defense and telecom manufacturer, each owned from requirements through deployment. 1,500+ hours of instruction explaining technical material to non-technical audiences.

SKILLS

Analysis & Reporting: Excel (Power Query, Power Pivot, DAX, dynamic arrays, Solver), Power BI, Tableau, Looker Studio, forecasting

Databases & Programming: Oracle SQL, BigQuery, MySQL • Python (pandas, openpyxl, Streamlit, pytest, Tkinter, PyInstaller), R

Systems & Process: ETL pipelines, REST API and OAuth2 integration, ERP and legacy-system data extraction, requirements gathering, Git

Quality & Communication: data validation and reconciliation, audit and QA testing, technical writing, runbooks and user guides, stakeholder training

AI-Assisted Development: Claude, Claude Code, agentic coding workflows, spec-driven prototyping and review, rapid tool delivery

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Escape Communications

July 2026 – Present | Torrance, CA

Sole developer on eight internal tools across engineering, quality, and procurement; requirements through deployment, AI-assisted builds.

- **Failure Analysis Search Tool:** Reverse-engineered an undocumented legacy defect-tracking system, audited its data quality, and shipped a search app surfacing years of engineering failure history buried in unstructured comment threads.
- **ERP Quality Reporting Audit:** Reconstructed a set of undocumented ISO 9001 management-review reports after the original author's departure, proved it against the historical record, surfaced material errors and undocumented metric changes, and specified an automated replacement.
- **BOM Sourcing & Purchase Planning Tool:** Built a purchasing-support application that prices and risk-assesses bills of materials against live vendor APIs, reporting obsolescence risk, build cost, and restock timing; diagnosed and fixed a part-matching defect suppressing coverage.
- **BOM Checker:** Packaged a standalone Windows tool that audits engineering bills of materials for structural and parametric defects, decoding manufacturer part numbers offline to verify stated specs against the part actually called out.
- **Common Parts Finder:** Turned a one-paragraph request into a same-day deliverable identifying components shared across product lines, profiling the existing BOM corpus first to surface unstated requirements for stakeholder decision.
- **FPGA Waveform Capture Validation Tool:** Replaced by-eye waveform inspection in a hardware verification workflow with an automated validator that reconstructs the message stream from a vendor capture archive and pinpoints the exact location of any mismatch.
- **Inventory Audit Log Tool:** Turned a one-page memo from the VP of Engineering into a shipped Windows application merging dated physical count sheets into a single running audit log, with append-only writes that cannot corrupt the existing record.
- **Interface Documentation Generator:** Built a Python tool that generates formatted Word interface documents from the same machine-generated JSON that drives an existing C/C++ code generator, keeping documentation from drifting out of sync with the code.

Mathematics Instructor & Tutor | Mr. J's Academy • Wyzant • Blue Train College Prep

Sept 2022 – May 2025 | Torrance & Goleta, CA

Delivered 1,500+ hours of instruction from Algebra 1 through Calculus across 17+ recurring clients, explaining quantitative material to non-technical audiences; 4.8-star Wyzant rating, 100% client retention, promoted to high school lead tutor.

Lab Technician | Escape Communications

Summers 2017 – 2023, 2025 | Torrance, CA

QA testing and calibration on power supply units, logging multimeter data into Excel trackers with automatic tolerance flags.

SELECTED PORTFOLIO PROJECTS (15 deployed at nadeaujonny.github.io)

- **Supply Chain Analytics (Oracle SQL, Power BI):** 180K orders; ABC/XYZ classification, ETS forecasting, MRP simulation, 6-page Power BI dashboard.
- **Skechers FP&A Model (Excel):** FY2020–FY2024 three-statement model with scenario and sensitivity analysis.
- **Customer Churn Prediction (Python, scikit-learn, Streamlit):** Five classifiers compared, SHAP explanations, deployed at 0.83 AUC.

EDUCATION & CERTIFICATIONS

B.A. in Mathematics | University of California, Santa Barbara

Sept 2018 – March 2023

GPA 3.40 (Mathematics GPA 3.49) • 4x Dean's Honors • Minor: Secondary Mathematics & Science Education

Data Science Certificate | UCLA Extension • Python, R, SQL, Tableau, Spark, scikit-learn

June 2026 – Dec 2026 (in progress)

Google Data Analytics Professional Certificate | Coursera • 100% average, all nine courses

Oct 2025 – Jan 2026

Single Subject Mathematics Teaching Credential Coursework | CSU Long Beach • GPA 4.00

Aug 2024 – Oct 2025
