

Jonathan Nadeau

Torrance, CA | nadeau.jonny@gmail.com | (310) 989-2905 | linkedin.com/in/nadeau-jonathan | github.com/nadeaujonny
Portfolio Website: nadeaujonny.github.io

Summary: Mathematics graduate (UC Santa Barbara), Google Data Analytics certified, AI tool proficiency. Portfolio spanning SQL, Excel, Tableau, Power BI, Looker Studio, Python, and R – including end-to-end supply chain analysis, ML churn prediction, automated ETL pipelines, e-commerce business optimization, cohort retention analysis, A/B testing, financial analysis, healthcare analytics, retail sales dashboards, operational analysis, and SQL data cleaning. Background in math education brings strong communication skills for translating analytical findings to non-technical stakeholders.

Technical Skills: **SQL** (Oracle SQL, BigQuery, MySQL, CTEs, Window Functions, Stored Procedures, DDL/DML), **Spreadsheets** (Excel, Google Sheets, Pivot Tables, Power Query, Power Pivot, DAX, Conditional Formatting), **BI & Visualization** (Tableau, Power BI, Looker Studio), **Programming** (Python, R, Streamlit), **AI Tools** (Claude Code)

Experience

Mr. J's Academy (Private School) | Teaching Assistant | September 2023 – June 2025 | Torrance, CA
Provided guidance for all subjects. Top math expert among the staff. Designed and delivered lessons. Promoted from middle school assistant to lead of high school. Tracked student progress. Managed schedules and learning for all students.

Wyzent | Math Tutor | February 2024 – May 2025 | Torrance, CA
Geometry, Alg 2, Precalc, Calculus. 4.8 star rating. Across 6 students. 100% client-retention rate.

Blue Train College Prep | Math Tutor and SAT Prep Specialist | June 2023 – February 2025 | Torrance, CA
Alg 2, Precalc, Precalc H, AP Calc AB. SAT prep (reading, writing, math). Across 9 students. 78% client-retention rate.

Escape Communications | Lab Technician | Summers of 2017 – 2023, and 2025 | Torrance, CA
Calibrated power supplies using Excel. Tested boards. Assembled units. Tracked inventory. Technical communication.

Private Tutor | February 2024 – Present | Palos Verdes, CA
Mathematics. 2 years of client-retention. 25% YoY rate increase. Tailored instruction to individual learning gaps.

Education

University of California, Santa Barbara | B. A. in Mathematics + Minor in Secondary Mathematics and Science Education | UCSB Educational Pre-Professional Program | September 2018 – March 2023 | 3.4 GPA | 4x Dean's Honors

California State University, Long Beach | Math Credential (coursework only) | August 2024 – October 2025 | 4.0 GPA

Google Data Analytics Professional Certificate | Coursera | October 2025 – January 2026 | 100% score

UCLA Extension Data Science Certificate | *In-Progress*

Portfolio Projects

SQL E-commerce Business Optimization Analysis | BigQuery, thelook_ecommerce dataset. CTEs, window functions, multi-table joins. Revenue drivers, return patterns, seasonal trends. Actionable recommendations per analysis section.

Excel Retail Sales Analysis and Dashboard | Superstore dataset. Power Query ETL. Pivot tables with KPI modeling. Sales and profit trends by product, region, and customer segment. Interactive, profit-oriented dashboard with slicers.

Tableau Operations and Customer Experience Analysis | Olist E-commerce dataset. Order fulfillment performance, revenue and sales performance, customer experience, products and sellers market ecosystem, and executive overview.

Power BI Healthcare Analysis and Dashboards | CDC U.S. CDI dataset. Power Query ETL. Dim tables to star schema. DAX measures (total, avg, rank, % change). Disease categories, regions, race, age, sex correlations and trends over time.

SQL Data Cleaning and Transformation | Nashville Housing dataset. MySQL. Data type conversions. Populated blank addresses using self-join. Trimmed strings. Dedup. Dropped columns. Created view, indexes, and stored procedure.

Looker Studio/SQL Cohort Retention Analysis | BigQuery, thelook_ecommerce dataset. Cohort sizing. Retention rates. Revenue by cohort. Retention by channel. Customer lifecycle segmentation. Cumulative revenue and customer LTV.

SQL/Excel/Power BI Supply Chain Analysis | DataCo Smart Supply Chain dataset. Oracle DBMS_SCHEDULER, SQL stored procedure. Excel analysis (demand forecasts, ABC/XYZ items, inventory optimization). Power BI dashboards.

Python Financial Analysis | yfinance API. 6 assets over 10 years. Values versus time. Returns, volatilities, correlations.

R A/B Testing and Experimentation | Simulated SaaS user onboarding data. Conversion rates and time-to-complete.

Python Job Market API Pipeline | USAJobs Search API. GitHub actions. 4 stage python script ETL (collect, transform, load, app). Streamlit dashboards updated daily (executive overview, salary analysis, geographic demand, agency analysis).

Python Customer Churn Prediction Model | Telco Customer Churn dataset. Data cleaning. Exploratory analysis. Feature engineering and preprocessing. Model training and comparison. Hyperparameter tuning. SHAP. Streamlit APP.

Julius AI Health Data Analysis | CDC U.S. CDI dataset. Diabetes by state. Asthma by race. Inactivity vs heart disease.
