Torrance, CA | nadeau.jonny@gmail.com | (310) 989-2905 | [linkedin.com/in/nadeau-jonathan](https://www.linkedin.com/in/nadeau-jonathan) | github.com/nadeaujonny
Portfolio Website: nadeaujonny.github.io

Summary: Mathematics graduate (UCSB), Google Data Analytics certified, UCLA Extension Data Science Certificate in progress. Analytics portfolio across SQL, Excel, Power BI, Tableau, Looker Studio, Python, R – spanning sales analysis, data cleaning, BI dashboards, financial analysis, A/B testing, API ETL, supply chain, ML/app deployment. Background in math education brings strong communication skills for succinctly presenting findings at various depths of technicality.

Technical Skills: SQL (Oracle, BigQuery, MySQL · CTEs, window functions, stored procedures, DDL/DML), Excel (Power Query, Power Pivot, DAX, pivot tables), Power BI, Tableau, Looker Studio, Python (pandas, NumPy, scikit-learn, matplotlib, Streamlit), R (tidyverse), Git/GitHub, GitHub Actions, ETL pipelines, Claude + Claude Code

Experience

Data Analyst Intern | Escape Communications | July 2026 – Present | Torrance, CA

Used Python Regex to analyze unit failure report text-field data from Bugzilla (MySQL-backed defect-tracking platform) extracted via PowerShell API JSON pulls. Built a streamlit app to allow engineers to perform more useful searches.

Mathematics Tutor | Blue Train College Prep · Wyzant · UCSB · Private Clients | January 2023 – May 2026 | Torrance & Goleta, CA | *Algebra 1, Geometry Honors, Algebra 2, Precalculus Honors, College-level Precalculus, College-level Calculus, and SAT prep (reading, writing, math) across 17+ students. 4.8-star Wyzant rating. 100% client retention. Adapted to individual curricula. Designed tailored problem-sets. High client satisfaction led to new client referrals.*

Lab Technician | Escape Communications | Summers of 2017 – 2023, and 2025 | Torrance, CA

Calibrated power supplies by verifying voltage/current measures using Excel Data Validation. Tracked inventory/flagged low part counts using Excel Conditional Formatting. Tested boards. Assembled units. Exercised technical communication.

Teaching Assistant | Mr. J's Academy | September 2023 – June 2025 | Torrance, CA

Tutored all subjects. Served as the staff math expert. Designed and delivered lessons. Promoted from Middle School Tutor to High School Lead with a 50% pay raise. Managed students and kept track of their assignments, grades, and deadlines.

Substitute Teacher | Torrance Unified School District | January 2024 – June 2024 | Torrance, CA

Class assignments ranged from elementary school to high school. Procedurally followed teachers' instructions. Used proper judgement when instructions were not provided. Quickly learned unfamiliar content to provide ad hoc instruction.

Education

UC Santa Barbara | BA in Mathematics | September 2018 – March 2023 | 3.4 GPA | 4x Dean's Honors

CSU Long Beach | Single Subject Mathematics Teaching Credential coursework | August 2024 – October 2025 | 4.0 GPA

Google Data Analytics Professional Certificate | Coursera | October 2025 – January 2026 | 100% score

UCLA Extension Data Science Certificate | June 2026 – December 2026 (*In Progress*)

Projects

Supply Chain Analytics | Oracle SQL · Excel · Power BI | **DataCo Smart Supply Chain (180K orders)**

End-to-end automated pipeline: Oracle stored procedures with scheduled automation, Power Query ETL, ABC/XYZ classification, ETS/WMA demand forecasting, a 6-month MRP simulation, and a 6-page Power BI star-schema dashboard with DAX measures. Diagnosed a structural 42.7% on-time delivery rate, with premium shipping tiers worst (~95% late).

College Match Finder | Python · Streamlit · 12 federal data sources | nadeaujonnycollegematchfinder.streamlit.app

*Deployed Streamlit app scoring U.S. colleges on weighted student priorities using College Scorecard, BLS, NCES, O*NET, and NY Fed data. Features School Finder, Major Explorer (~410 majors), a 60-question RIASEC fit questionnaire, side-by-side comparison, mapping, and CSV/PDF export.*

Skechers FP&A Model | Excel · 3-Statement Modeling | 10-K filings (FY2020 to FY2024)

Built a 3-statement financial model from iXBRL 10-K data with linked income statement, balance sheet, and cash flow. Bear/Base/Bull scenarios, sensitivity tables, variance analysis, and a KPI dashboard, with all balance checks passing.

Federal Job Market API Pipeline | Python · SQLite · Streamlit · GitHub Actions

Automated daily ETL from the USAJobs API (collect, transform, load, serve) with idempotent upsert logic and an audit log. Streamlit dashboard auto-refreshed via a GitHub Actions cron, with executive overview, salary, geographic demand, and agency panels.

SQL E-commerce Business Optimization | BigQuery | thelook_ecommerce (181K+ orders)

CTEs, window functions (ROW_NUMBER, RANK, LAG/LEAD), and multi-table joins to surface revenue drivers, return patterns, geographic distribution, and seasonal trends, each section paired with actionable recommendations.
